TUITION INCREASE

Beginning next month our fees will be slightly adjusted. We exhaust all areas to keep fees low. The last time our rates were increased was 5 years ago. Actually, in 29 years of business, this has only happened 4 times. We still have remained the lowest cost for instruction in the area, and that is something we are proud of. Our customers are still our top priority and we strive to keep that commitment. Beginning September 1st all classes and cheer squads at Damar will increase by \$2 each month (or you can look at it as .50 a class). So, if you paid \$44 in August you will pay \$46 in September. We apologize for any inconvenience, if you have any questions or concerns please feel free to contact us or stop by upfront.
